[Guam Travel Flight Booking Guide] How to Reserve One-Way Flights Online – Easy Steps & Travel Tips

1. Decide whether you truly need only one direction, or whether a return is likely soon enough that a round trip might cost less overall.

2. Search the one-way fare and a round-trip fare for the same outbound flight, and compare the totals rather than assuming one is cheaper.
3. For international trips, check whether the destination asks for proof of onward travel before you rely on a one-way ticket.
4. Choose the fare type based on how fixed your date is, since a one-way ticket follows its own change and cancellation rules.
5. Pay, save the confirmation, and set a reminder to book the return once your plans for coming back are clear.
