JetBlue also offers online help for schedule changes, refunds, delayed or canceled flights, and other travel questions. Before calling, prepare your confirmation code, passenger name, travel date, and preferred flight details. If you've already booked, explain exactly what needs to change. This helps the representative focus on your existing reservation instead of starting a new booking.

JetBlue notes that flights booked or modified by phone or chat may incur a $25 fee per person on the reservation. You can avoid that service fee by booking directly on JetBlue.com or managing an existing reservation through Manage Trips, where available. Check the current terms before proceeding. <Cite refs={["turn855113search1"]}/>

For last-minute travel, have an acceptable departure window and alternative dates ready and call +1-(888)-394-2108. Fares and seat availability can change before purchase. If you're traveling for a time-sensitive appointment, leave enough time for airport check-in, security, and any required international travel documents.

If you lose a personal item on board or at the airport, use the relevant reporting channel through JetBlue's official website. Items left in an airport terminal may need to be reported to the airport rather than the airline.

JetBlue permits eligible infants to travel on an adult's lap, subject to its age, documentation, and booking requirements. Check by calling +1-(888)-394-2108.

How to add an infant to a reservation

For travel within the United States, JetBlue allows customers to add a lap infant when booking online. If you've already booked the adult's ticket, JetBlue advises contacting the airline to add the infant. International travel requires a valid passport for the infant, and additional fees or documentation may apply depending on the itinerary.

Call **+1-(888)-394-2108 (US-English) or 800-538-2583 (US-Spansih)** if you need assistance adding an infant to an existing reservation. Confirm the infant's details and travel arrangements before departure.

Bassinet seat selection

If you're traveling with a baby and need a bassinet, contact JetBlue at +1-(888)-394-2108 to ask what arrangements, if any, are available for your specific aircraft and route. Don't assume that a bassinet can be reserved or that a bulkhead seat includes one. Confirm the arrangements directly with the airline before relying on them.

Name Corrections and Fare Enquiries

If the name on your ticket doesn't match your travel document, contact JetBlue at +1-(888)-394-2108 before departure. Explain whether the issue is a spelling error or another type of correction. Have your confirmation code and passenger details ready.

Do not assume that a ticket can be transferred to a different traveler. Ask JetBlue at +1-(888)-394-2108 what process applies to your booking and check the revised ticket after any correction is made.

For fare enquiries, compare the full itinerary rather than only the initial advertised price. Travelers researching routes such as New York to London, Boston to Orlando, or New York to Los Angeles should confirm the operating airline, dates, connection details, baggage allowance, and fare restrictions. For best deals and discounts call +1-(888)-394-2108.

Your options depend on your ticket, the reason for the missed flight, and the remaining itinerary. Ask JetBlue to review the reservation before purchasing another ticket. If you're already at the airport, speak with a JetBlue representative.

For delays or cancellations, check the flight status and review any rebooking options shown online. Keep your booking confirmation and any relevant notifications. If you incur additional expenses, retain receipts and check JetBlue's current policies to determine whether your circumstances qualify for assistance or reimbursement.

Don't assume that a delay automatically qualifies you for a refund or that all remaining flights on your itinerary will stay unchanged. Confirm your reservation status with the airline.
